ABOUT THE DESIGN

Meet our Chief Creative Office Blythe Harris

The single question that Blythe Harris always hears is, “What inspires you?” But after you get to know her, a more appropriate question becomes, What doesn’t? Behind her kind, cheerful demeanour Blythe has an incredible life story. From an Art degree at Stanford, to studying painting and sculpture in Mexico, to creating her own toy company, to Parsons in Paris, to living in a hut with artisans in India, then to Columbia, on to LVMH, then receiving the FGI Rising Star Award—the staggering calibre and variety of Blythe’s influences give her a creative vision like no other. She is at once a fashion authority, a perpetual student of the world, a hard -working executive, and a devoted mother, wife, and friend. But you might never know these things about Blythe, because her passion is to create opportunity and promote success for others. Doesn’t get more S&D than that.

In January 2012, Blythe Harris received the Rising Star Award for Accessories from the Fashion Group International (FGI). In November 2012, Stella & Dot was recognised by the Accessories Council with an ACE Award for Retail Innovation. In February 2013, Blythe Harris received the UK Drapers Accessories Designer of the Year Award. Stella & Dot has been recognised by Inc. 500 | 5000 as a Fastest Growing Private Company.
CASABLANCA PENDANT NECKLACE

We love this Art Deco-inspired, pave-encrusted, geometric pendant. Can be worn long or short with the same great versatility as our favourite Phoenix Necklace. Wear the pendant long and stunning as a statement piece, or remove the bottom two drops for a more casual look. Also looks great worn short and layered with our signature Sutton Necklace in silver. Vintage silver plating. 18.5” worn short, adjustable to 28”.

**Behind the Design**

“*Our delicate, geometric necklaces leverage our heritage in luxury jewellery making. Their high-end and boutique style enable you to make a great statement, but in a soft way.*”

Blythe Harris, Chief Creative Officer

“From a materials standpoint, I was inspired by the idea of creating something that looked & acted like a fluid ‘coat’ of feathers but was actually made out of a hard material like metal. I wanted the silhouette to be very regal. I imagined a necklace that a modern day Cleopatra would wear—but also casual and lightweight enough to be worn every day. I am very interested in texture and I loved the way these metal’ feathers’ looked when they overlapped. I experimented with tons of different plating colours to perfect the gradient of colour from top to bottom.”

Blythe Harris, Chief Creative Officer

FROU FROU NECKLACE
Not for the faint of heart, inspired by Frida Kahlo and all she embodies as an artist. Worn gold plated chain is accented with a mix of semiprecious amethyst stones along with handmade purple organza petals. 16.5 + 2” extender.

Behind the Design
“Inspired by my Autumn 2013 muse Frida Kahlo and how she wore flowers in her hair. This necklace is a celebration of bold adornment and very special. The tribal metal shapes are combined with the softness of the chiffon petals. Each of these necklaces is handmade in New York.”

Blythe Harris, Chief Creative Officer

GWYNETH PENDANT NECKLACE
From our signature sterling silver and bronze collection, this necklace can be worn multiple ways. Wear it long or short, add or remove the pendant or any of the three charms to create a look all your own. 34” adjustable length.

GWYNETH STATION NECKLACE
From our signature sterling silver and bronze collection, this sterling silver chain decorated with romantic, hand-hammered bronze flowers will be your new favourite piece. Wear it long or double up for a shorter two-in-one look! 38” length.

Behind the Design
“Two years in the making, the Regina combines deco and traditional Native American influences. This style is a celebration of the effortless chic of French women and reminds me of one of my favourite designer - French designer Isabel Marant – who uses a lot of tribal patterns.”

Blythe Harris, Chief Creative Officer

Behind the Design

“Behind the Design

“I was inspired by a piece of vintage lace that my Grandmother, Dot, left me when she passed away in 2009. Her father owned a lace factory in Geneva and she had a whole drawer of lace swatches that I went through to find something with the perfect amount of negative space for the cuff—I was again inspired by creating something that looked really fragile and elegant but was made out of the hard metal. I was obsessed with getting the texture of the metal exactly right to mimic the texture of the original lace.”

Behind the Design

“Our perforated bags were inspired by our Avalon jewellery line. The perforation pattern is uniquely designed and perforated by laser on our saffiano bags. Perforation is a huge trend this Autumn 2014 and used by luxe designers such as Chloe and Gérard Darel.”

Blythe Harris, Chief Creative Officer

Are the ear wires lead and nickel safe?
YES! The majority of our ear wires and posts are sterling silver or 14kt gold vermeil. Posts are either sterling silver or surgical steel.

What is sterling silver?
Silver jewellery looks bright and gorgeous when new. We use .925 sterling silver, the same quality as the finest jewellers in the world. This is pure silver mixed with copper to enhance strength and durability.

What is the best way to keep jewellery looking new?
3 QUICK RULES: 1. Always last on, first off. 2. Seal and store in air-tight plastic baggie. (Never keep your jewellery in the bathroom - humidity is the enemy). 3. Keep it dry (never bathe or spray perfume on your jewellery).

How can I clean tarnish?
Ok, so you're the girl who forgets to take off her makeup before bedtime, not to mention your necklace and despite your love of the Stella & Dot, swims in your jewels. Come on, your charm necklace looks good with a bikini! Read jewellery polishing instructions carefully and use ones made for jewellery (3M makes less abrasive types). Some will provide protection from future tarnish. No toothpaste or baking soda - too abrasive!

What is vermeil?
It is a term that describes a coating of gold on sterling silver. Have you ever heard of gilded silver? That's vermeil. We use the process of electrolysis to attach 18-24kt gold to sterling silver. Electrolysis is also called electroplating or just "plating" for short. This process will stand up to normal wear. Gold-filled and vermeil products are a great, quality alternative to the much more expensive solid karat gold. Vermeil is a bit more delicate than gold-filled, but comparing them is a bit apples to oranges. Both are high in quality, but vermeil is often a bit more yellow in color due to the higher karat commonly used. Vermeil is a process used to turn charms and cast pieces into a gold tone since they can be made in silver and then dipped in gold.

What is Stella & Dot gold plate or gold tone?
Gold plating is the process used to achieve a gold finish on any base metal type other than sterling silver. Over time, gold plating may wear. This is normal wear and tear process and is not a result of a manufacturing defect.

Where are the handbags made?
Like our jewellery, we work with only the best designers and production partners in the industry. Our bags are made in the same factories as LVMH, Prada, and Coach.

How do I care for my handbag?
Take good care of your leather handbag well and it can last forever. Our leather bags are not treated. This allows the bags to age gracefully, making them distinct and unique. So, here are a few tips to help you care for your special handbag. 1. Look after your bag and store it in its dust bag cover or use a natural fiber soft pillow cover. Never use a plastic bag. 2. Keep your cosmetic products and pens in pouches inside the bag to avoid staining. 3. Handle your bag with clean hands. 4. Avoid handling the special bag after applying beauty products, face foundations or hand creams. 5. Apply a good quality leather protector spray to clean dry leather. This can keep the leather from drying out and cracking over time. It will also reduce the tendency of the leather to stain. 6. Clean your bag if it gets dirty by simply wiping it with a soft, damp cloth. 7. Avoid using a leather cleaner that contains oils to clean, as cleaning oils can trap moisture and dirt, staining the leather. Ink marks, grease and oil stains are unfortunately not removable and should be left alone. 8. If the bag is stained, take it to a professional leather cleaner who will have the expertise to remove the stain.

Is your hardware custom made?
Yes. We work directly with local, fine jewellers in New York to design our signature hardware, a practice unheard of in the handbag community. Incorporating premium elements, like curb chain and custom-made signature clasp pulls, add to the superior quality and craftsmanship of our luxury bags.

What type of leather is used?
We use real premium leathers for our handbags including New Zealand lambskin known for its soft feel and premium quality. The lambskin used for our bags is entirely sorted by hand for consistency in texture, a technique used by top handbag makers. We also use two different embossed snakeskins and crinkle patent.

Where do you source your materials from?
We travel the world to work directly with the finest stone cutters and component makers, sourcing our own goods to eliminate the markup of a middle man. We’d rather enable earnings for a woman. That way, we can invest in the quality and design of our collections and provide them at a lower price, creating amazing value for our customers.

What materials do you use?
We design using a mix of materials like semi-precious stones, resins, crystals, glass, 0.925 sterling silver, bronze, 18-24 karat gold vermeil, and hand-painted enamel. We simply choose the best quality materials to create the right look, weight, and price.

What is your corporate social responsibility stance?
Our design team works with high-end facilities around the world that also create items for the most exclusive designers. We only work with the best production partners that adhere to all fair labor practices. We believe a piece has to be beautiful inside and out. We’d never settle for less.

How do you deliver couture design at great value?
Our design team is comprised of the best talent in the industry, bringing decades of experience from the finest luxury brands like LVMH and Coach. We have a full in-house team of skilled and passionate designers, model makers, sample makers, and merchants to create our exclusive collections. We look at every component on every piece as a change to create an irresistible piece of art that makes you feel beautiful and unique. We are simply obsessive about the details. However, because we source our own products and work directly with the stone cutters and component makers, we are able to deliver couture design at a lower price.

Where is the jewellery designed?
Stella & Dot jewellery is designed exclusively in New York.

What do you do by hand?
Any stone setting and crystals are all hand set. All enamel is hand painted. When there is knotting on a style, it is hand knotted. Glass or semi precious stones with facets are hand cut and faceted. If the glass or semi precious stone is smooth, it is hand cut and polished. Beads on a necklace without knots are hand strung. All braiding is hand braided. All styles with any sort of wire wrapping, fringe, etc are hand finished or hand assembled.

Is your jewellery lead and nickel safe?
Yes! Our entire collection, including our girls’ jewellery, is tested for lead content at certified testing facilities and meets all rigorous standards required by law.
